Percentage of GB rockets destroyed to date	88.3
Percentage of GB bombs processed to date	COMPLETE
Percentage of total agent tons destroyed	18.63
Number of igloos emptied	38

UMCDF Operations

- Safety is number one at UMCDF: Employees have worked 621 days since the last lost-workday accident (Oct. 22, 2004).
- The disposal facility completed its second-best day for rocket processing July 1 with 589 destroyed. The plant's record is 642 rockets set Oct. 24, 2005.
- Rocket processing surpassed the 80-percent destruction mark, July 3.

UMCDF employees receive frequent training to maintain their skills in the event of an emergency. Training Specialist Mike Ford demonstrates proper fire extinguisher technique to Amber Bieren (left) and Sherry Hartsock. Then, the ladies put their training to use by putting out a live fire.

*Leading the
Way to a Safer
Future*

The Umatilla Chemical Agent Disposal Facility is safely destroying the stockpile of weapons stored at the Umatilla Chemical Depot while ensuring maximum protection for our workers, our community and our environment.

CREATING A SAFER TOMORROW
